

ABT-HC-LS-16

Product Description

The Standard Series Glass Laboratory Refrigerators are purpose built for scientific and medical applications. Standard Series Glass Door Laboratory Refrigerators feature a digital microprocessor temperature controller allowing for the precise temperature management necessary for critical samples and supplies. A forced air directional refrigeration system provides superior temperature uniformity and recovery after door openings.

The temperature display and alarm module offer product security with a monitoring and alarm system. Real-time sample simulated temperatures are constantly displayed and supported by audible/visual high and low temperature alarms.
