

Lovibond® Colour Measurement Tintometer® Group

AF325 Platinum-Cobalt/Hazen/APHA Units

Visual Colour Grading of Platinum-Cobalt/Hazen/APHA Colour (Range 10 - 250 mg)

- Ideal for Lightly Coloured Liquids such as ground water and chemicals
- Long Path Length Nessleriser Comparator for Greater Sensitivity and Accuracy
- Fast, Economical & Portable Visual Matching
- Ability to Guarantee Constant Lighting Conditions

Part Number: 433250

Greater Measurement Sensitivity and Accuracy for Lightly Coloured Liquids

The Lovibond® AF325 is a visual test kit is ideal for relatively unsaturated liquids due to its extended path length.

Fast, Economical & Portable Visual Matching

The Comparator 2000+ is a flexible, modular system for Visual Colour Grading. Using a suitable comparator instrument and glass disc, you can quickly visually match the sample directly against the calibrated, colour stable glass standards.

Two-Field Vision for Accurate Results

Lovibond® comparator instruments include an integrated prism which causes the sample and comparison fields to overlap, allowing enhanced colour discrimination and matching. The prism is ultrasonically sealed to prevent contamination of the optics. Each individually graded glass standard represents a discrete step on the measurement range (as opposed to a continuous graduation), aiding colour discrimination and allowing great accuracy of results.

Ability to Guarantee Constant Lighting Conditions

An optional item for the Comparator 2000+ is the Daylight 2000 Lighting Unit. This is a standardised light source which guarantees you a constant lighting condition for accurate colour grading. This is particularly useful when the sample is very pale in colour. By using a Lovibond® lighting unit, you can confident of uniform lighting conditions for colour matching, 24 hours a day and irrespective of ambient lighting.

Extended Shelf Life

The unique feature of Lovibond® test discs is that they incorporate coloured glass standards that are colour stable and not affected by UV light or extreme environmental conditions.

Please note, we cannot guarantee compatability of discontinued Lovibond® Comparator 1000 disks with the Lovibond® 2000+ Comparator.

Industry

Chemical Industry | Food and Beverage Industry | Oil and Gas | Pharmaceutical Industry

Application

Chemicals | Edible Oils and Fats | Petroleum Oils and Waxes | Waste-Water Treatment

AF325 Platinum-Cobalt/Hazen/APHA Units

The Comparator 2000+ is an easy-to-use, entry level colour measurement system that compares the colour of the sample directly against the colour of glass in a disc. All you need to do is rotate the disc to get the closest result to the scale. The Lovibond® AF325 is ideal for the colour grading of lighter liquids according to Platinum-Cobalt/Hazen/APHA Colour over the range 10 - 250 mg Pt/l.

Technical Data

Applicable Standard	ASTM D1209 ISO 6271
Colour Type	Transparent
Portability	Portable

Delivery Scope

- 1 x Nessleriser Daylight 2000+
- 1 x NSB Hazen Scale Disc
- 1 x NSH Hazen Scale Disc
- 1 x Stand for Nessleriser Unit
- 1 x Nessleriser Body
- 1 x Pair Nessler Cylinder AF306P
