COMPACT BALANCES

The EJNewton Series

A new model with 1 mg resolution joins the EJ family of compact balances. Affordable and built-to-last, EJ Series balances are used in many applications including:

Industrial Pharmacy Education

With thousands of balances in laboratories and production facilities around the world, the EJ Series has provided years of reliable weighing performance and are backed by A&D's industry-leading 5 year warranty.

[illegible]

Affordable Precision

Now students, researchers and industrial users have a convenient and affordable way to make milligram measurements.

The EJ-123 has standard functions usually found in balances costing twice as much:

- Gravity correction
- Accumulation function
- GLP compliant output

The EJ-123 makes milligram measurements as easy as, well, 1-2-3:

1. Plug-in and warm-up the balance.
2. Level the balance by adjusting the feet.
3. Start weighing.

Options

EJ-02 & EJ-02C

Quick USB interface. Option EJ-02C includes USB cable.

EJ-03

RS-232C (serial) interface.

EJ-07 & EJ-08

Underhook. EJ-07 for EJ-3000 to 6100. EJ-08 for EJ-1500, EJ-2000.
