

A general purpose thermal roll printer, the ATP2 is ideal for use with most balances and scales. Designed to be efficient and compact, the printer occupies minimal space on a bench or tabletop. Operation is simple, with an on/off switch, paper feed button and two LED indicators. Ideal for printing applications, the ATP2 is able to perform a variety of other commands, such as setting tabs, spacing and carriage return. Users can specify absolute position, select or disable double width, and designate line feed. The printer is preset to work with the default RS-232 interface on Adam balances, but adapts easily to work with other equipment

Print results quickly and easily

Features

- Direct thermal line printing
- Dimensions: 7.8” x 4.7” x 4.0” / 197 x 120 x 102mm (lwxhxh)
