

PILOT3000

ECONOMICAL CHEMICAL-RESISTANT
DIAPHRAGM VACUUM PUMP

The **PILOT3000** economical chemical-resistant diaphragm vacuum pump is constructed from quality parts, manufactured in the USA and offered at an affordable price. This Laboratory Vacuum pump is library-quiet - the noise level is only ~ 54 dB small, durable, and chemical resistant! The **PILOT3000** is nearly maintenance-free because of the PTFE coated surfaces, PTFE membrane, stainless steel valves and oil-free design. The pump features a vacuum regulator with gauge to adjust and monitor vacuum level. The **PILOT3000** is a 20 psi continuous duty pump.

Air Flow Rate (lpm)	CFM (L/min) @ 60 Hz 0.7 (20)
Maximum Vacuum, Hg	22"
Ultimate Pressure, Torr (mbar)	190 (253)
Tubing Needed, I.D.	1/4"
Cord Supplies	North American 115V Plug
Motor H.P.	1/7
Usage Hours	15,000
Motor Voltage & Frequency	115V, 60Hz, 1Phase
Motor Amps	1.5
Overall Pump Dimensions	6.8"L x 7.3"W x 8.3"H
Shipping Dimensions	16"L x 16"W x 16"H
Weight	7.5 lbs.
Shipping Weight	12 lbs.
Certification	UL Recognized
Warranty	One Year Warranty

PRESSURE REGULATOR KIT ASSEMBLY

- Regulator Kit Includes:
- Dial Pressure gauge
 - Hand Knob Control
 - 1/4" O.D. Hose barb
 - 1/8" NPT Exhaust Adapter
 - Built in Silencer

Instruction sheet for installation on both pumps.
