

LabStrong Fi-Streem™ Water Purification Systems

No Cartridges. No Filters. Just Pure Water.

LabStrong Fi-Stream Glass Stills and Accessories

Distillation has the broadest removal capabilities of any single form of water purification.

LabStrong Fi-Stream Glass Stills

LabStrong Fi-Stream Stills consistently produce high quality ASTM Type II water and can remove impurities such as inorganic ions, dissolved gases, organics, particles, bacteria and pyrogens from water. They are ideal for general lab applications and are suitable as a Type 1 ultrapure system pretreatment. The stills are CSA, cCSAus and CE certified. The stills will meet your water needs while remaining budget-friendly.

Product Features

- Low maintenance, easy to clean and simple to install
- Patented vapor trap eliminates carry-over of contaminants in the vapor-borne water droplets
- Glass components eliminate the leaching of impurities
- Can be turned off for extended periods of time without having to replace costly consumables
- Totally enclosed still assures safety from breakage and hot surfaces
- Space-saving design with bench or wall mounting options (wall mount bracket included)
- Designed to operate with tap or pretreated inlet water sources (all components included)
- All necessary tubing included to complete installation
- Water storage accessories and pretreatment kits available (See Page 3)

LabStrong Fi-Stream 2S Stills

- Economy model with easy to operate rocker switch controls
- Available in 1.4, 2 and 4 liter per hour models
- Heating elements are protected with an over temperature switch
- 24-hour automatic operation when used with the 8 L (A1052LS) or 20 L (B00123) Carboy

LabStrong Fi-Stream III Stills

- Available in 4, 8 and 4 Bi-Distilled (double distilled) liter per hour models
- One-touch, fully automatic microprocessor controlled operation with simplified cleaning cycle
- Frequency of cleaning reduced with automatic drain cycle in tap feed models
- Boiler and elements double protected from low water conditions
- Base of still designed to contain accidental leaks within the still
- Double distillation process (A56230-857LS and A56238-857LS) increases water purity
- 24-hour automatic operation when connected to 20 L Carboy (B00122), 40 L Storage Tank (B00121) or 50 L Carboy (A1058LS)

LabStrong Water Storage Reservoirs

8 Liter Carboy

- Easy to install
- Portable design is ideal for transport
- Handle on top

20 Liter Carboys

- Ergonomically designed
- Easy to grip handles on top and bottom
- B00123 designed for Fi-Stroom 2S Stills
- B00122 designed for Fi-Stroom III Stills
- B00124 is a storage/transfer carboy

50 Liter Carboy

- Easy to install
- Portable design
- Two handles on top

40 Liter Storage Tank

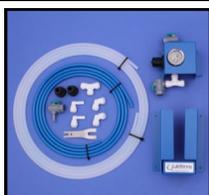

- Vent filter prevents airborne contamination
- Contains water level sight window
- Bench or wall mounting options
- Distribution accessory available

LabStrong Water Pretreatment Kits for Fi-Stroom Stills and Other Water Purification Systems

- Outstanding cost to capacity ratio
- Pressure regulator assembly and leak detector kit enhances safety
- Flow regulation valves, tubing and fittings included with kits
- Single or dual cartridge holder kits available
- Cartridges have 2 year shelf life

ABOUT US

LabStrong Corporation was formed to deliver innovative designs and equipment to the laboratory industry. We have over 75 years of experience in the design, manufacturing, and support of laboratory, medical and scientific equipment. LabStrong focuses on product development for high quality laboratory equipment applications. Our support and design teams are available to work directly with all members of your staff to understand your needs and applications. LabStrong is your one stop laboratory equipment supplier and custom manufacturer.

QUESTIONS OR COMMENTS?

If you have any questions or comments, please feel free to contact LabStrong. LabStrong is a full line manufacturer of standard, custom and OEM laboratory equipment. We are committed to providing superior laboratory equipment for all applications and look forward to working with you. If you have specific custom or OEM product needs, please visit our website and fill out our OEM product needs request form. Our strength is helping you be innovative in your product design and needs.
