

# SRI Model 310MM Gas Chromatograph with Built-in Hydrogen generator and air compressor

**The SRI Model 310MM** Gas Chromatograph ( part# 0310-0091 ) is the perfect GC for many labs and individuals.

**Measure** Cannabinoids, Terpenes and Residual Solvents

**Low Cost.** A fraction of the cost of most other GCs.

**Portable.** You can fly with it as airline baggage.

**Rugged.** Use it in the lab or the field.

**Fast.** 10 minutes for a cannabinoid analysis. 16 minutes for terpenes and cannabinoids in a single test.

**No gas cylinders required.** The built-in Hydrogen generator and air compressor provide all required gases. Runs on just distilled water.

**Powerful.** The two columns let you separate gases or liquids without changing any hardware. The sensitive FID detector measures down to .01% THC.

**Easy.** Anybody can learn to operate this GC in a few hours. **You don't have to be a scientist.**

**Software Included.** And you can install the software on as many computers as you like. Updates are free.

**Two Year Warranty..** One year on H2 cell.

**Free Training and US based Tech Support.**

12 x 14 x 15 inches  
30 pounds

Built-in H2 generator

Terpenes and Cannabinoids in a single analysis

**Videos** See the many you-tube videos.
